CURRENCY RECYCLER RBU-11

- Increase Teller Productivity
- **Reduce Expenses**
- Improve Cash Optimization
- **Reduce Teller Differences**
- Increase Cross-Selling Opportunities
- **Enhance Branch Security**

Recycling System

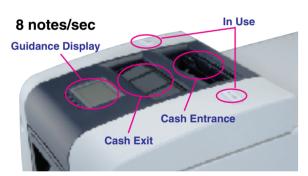

Operating cash is replenished and depleted by transactions processed throughout the day.

AVE							/
Divert	Stacker	Stacker	Stacker	Stacker	Stacker	Stacker	
Bin	1	2	3	4	5	6	
300	1500	1500	1500	1500	1500	1500	
notes	notes	notes	notes	notes	notes	notes	

Increase Teller Productivity

Faster speed allows tellers to process more transactions quickly, increasing productivity, and reducing customer wait times.

Real Escrow

Bills are stored until the transaction is accepted by the teller. If the transaction is cancelled, the original bills are returned.

Utilizing the Escrow feature, the RBU-11 also functions as a Currency Counter/Discriminator.

Increase Productivity and Reduce Expenses

Increase staff productivity by quickly and efficiently processing all currency transactions through the RBU-11

Reduce customer wait times in line to be serviced

UL-291 24hr

Reduce time spent manually verifying incoming shipments and preparing outgoing shipments and customer currency orders

Eliminate dual-manual verification for cash bought and sold between tellers or the cash vault

Increase cross-selling opportunities at the teller window

Reduce staff required for branches open with extended hours and on weekends, eliminating overtime

Increase accuracy and reduce staff turnover due to teller differences

Manage currency inventory levels reducing: Cash-In-Transit; total cash maintained in the branch, and at the individual teller level

Reduce back office expenses associated with cross-shipping of cash orders to and from the branches

Reduce armored courier expenses and increase cash optimization by limiting cross-shipping

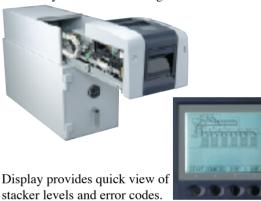

Easy Access

Cash can be manually removed from stackers to perform audits or in case of power failure.

Easy Maintenance

Front-loading stacker units and maintenance area allow easy access for cleaning and maintenance.

Space Saving Solutions

- Fits under standard teller counter configuration.
- · Can be placed under or beside a desk.
- Adaptable to kiosk-style, open floor plan environment.
- Two tellers can be assigned to each RBU-11 at one time, and additional tellers can use the Vault "Buy/Sell"function.

Alarms and Security

- UL291-24hour safe allows money to be stored overnight, and alarms to be connected into the bank's alarm monitoring system.
- Maintains an Electronic Journal of all transactions.
